Principal's Message

Dear Parents,

Happy New Year!

As we gear up for what promises to be another great year, I want to express my gratitude and appreciation to each and every member of our school community. Last year was a year of immense resilience and adaptability as we navigated through unprecedented times. The way in which our students, teachers and staff came together to support each other and overcome obstacles was truly inspiring.

As we look forward to the year ahead, we remain committed to continuously improving our school and enhancing our students' learning experiences. Our vision is to instill a lifelong love of learning in each of our students and to equip them with the knowledge, skills and values they need to excel not only academically, but also in all aspects of their lives.

As we move forward into 2023, I am confident that we will continue to tackle any challenges that come our way. Our students, staff, and families are all an integral part of this community, and I am incredibly grateful for each and every one of you.

Thank you for all that you do to make our school a special place. I wish you all a happy and healthy new year.

Warm regards,

Dr. Vishal Kataria

New Year- A New Chapter, New Verse

DPSA wholeheartedly welcomed our DIPSITES back to school after a refreshing winter break. To mark a more cheerful beginning activities like My New Year Resolutions, What I Was and What I Must Be, Hand Craft, and Special Welcome Back to School Assemblies were conducted for the students. Children had a great time and cherished the fun moments at school after the break.

Talent Repeats; Genius Creates:

To unleash the latent talent of the Kindergarteners we provided them a platform where they can showcase their unique talents and skills. Students felt appreciated and acknowledged, which in turn enticed them to keep up the good work. It also refined the hidden talent of the little ones and boost their confidence.

Tell It with Style:

“A story can imbibe the right value in the most impressionable age”. To encourage the story telling skills of the students a story telling activity was conducted for Grade 1. The stories that they narrated were moral-based and these young storytellers used a variety of props to make their stories interesting and expressive.

Train Now, Be a Champion Tomorrow:

Helping the students in master keyboarding is very important as it will help them with various educational programs and opens more opportunities in the future. Keyboarding skills are a necessity in the 21st Century as it looks forth the development in the IT field. With the advancement in technology and its collaboration in studies, the program helped the students to improve their ability to input information on a keyboard smoothly while typing.

It's Not About Who is Right, It's About What's Right:

“War doesn't determine who is right but who and what is left.”

A panel discussion was held with students for Grade 9 and 11 students on the topic “Russia-Ukraine War”. The students were divided into groups with four different subtopics: ‘The Impact of War on Global Food Supply’, ‘Minerals and Energy Resource Supply and The Impact on Industries in Developing Countries’, ‘Refugee Problems’, and ‘War Impacts on World Economy’. The students pointed out the hazards of the war which results in the loss of millions of innocent lives and has dangerous impacts that even future generations will have to deal with. Each group had done thorough research on the above topics and did a wonderful job in presenting their work.

SPEAK OUT AND STAND OUT:

Elocution is an art of public speaking that gives us self-boost and confidence to speak in front of a large audience. It enables students to create a connection with the audience who is listening to them through expressions and voice modulation. The students of Grade I performed elocution on different topics of their choice which brimmed with their boundless energy and resilience and displayed confidence and the art of amazing public speaking.

Know and Grow:

Healthy competition inspires kids to do their best. When students compete, they become more inquisitive, research independently, and strive to do more than is required. These abilities prepare children for future situations of all kinds. On 19th Jan 2023, we witnessed 'The Little Scientist' activity in the Kindergarten Department on which the tiny tots got their brain in gear. The children enjoyed observing the science experiments presented by their friends.

Brilliant Brushes

A painting activity was conducted for the students of Grades 2-4. They displayed their creativity in the form of amazing art, pictures, and sceneries with vibrant colors. This fun-filled activity witnessed enthusiastic participation from all the students.

Respect diversity and Make Unity:

Students from the primary section of Grade 1-3 participated in the 'Unity in Diversity' activity to represent the unity of people with diverse cultures. The activity celebrated UAE as a hallmark of different colours and lifestyles, where people from various backgrounds collaborate harmoniously in a myriad of ways.

Our Constitution is Our Power - Republic Day Celebration:

Republic day was celebrated with pomp and show, zeal and spirit, throughout length and breadth of DPSA. Special assemblies and activities were conducted to commemorate the day. The National Flag of India was hoisted by our Principal Dr. Vishal Kataria. Patriotic songs were sung, and the national anthem was played, followed by various activities in different sections. The kindergarten department played an informative video about the significance of the day and the students dressed up with white/Saffron/Orange/Green colours and made Indian flag colour crafts. While the Primary Department had a Fancy Dress Competition based on the Freedom Fighter and National Heroes. The live session of Republic Parade led by The President of India Droupadi Murmu was presented to the senior students.
