New Initiatives 2025-2026

1. I Start Arabic App:

The I Start Arabic App was introduced to enhance students' language skills, including reading, listening, and speaking skills in Arabic. The app allows students to complete assessments independently and receive immediate feedback on their performance. This instant evaluation helps students understand their learning levels and identify areas for improvement, thereby supporting continuous and self-paced learning.

2. Arabic Benchmark Exam:

The Arabic Benchmark Examination has been introduced for students to assess and strengthen their proficiency in the Arabic language. This initiative helps in identifying learning levels, improving language skills, and ensuring consistent academic progress.

3. Level wise Teaching in Arabic

Level-wise teaching in Arabic has been introduced based on students' proficiency in the language. This approach ensures that each learner receives appropriate support and challenge, helping them progress effectively and improve their Arabic communication and comprehension skills.

4. ASSET Practice Session:

To improve students' performance in the ASSET examination, structured practice sessions were integrated into the homeroom schedule across all phases. The homeroom time was extended, and a well-planned timetable was developed to ensure consistent and focused preparation. Students received thorough practice, which enhanced their conceptual understanding, familiarity with question patterns, and confidence in attempting the assessment.

5. Staggered Break Time:

The staggered break time was introduced as an initiative to provide students with maximum opportunities to participate in a variety of physical activities. This approach ensured that students could enjoy their meals comfortably while also engaging in meaningful social interactions with peers. By reducing overcrowding and creating a more relaxed environment, it contributed significantly to students' physical well-being and overall development across all phases.

6. Sway Newsletter:

The Sway Newsletter was launched as a fortnightly communication platform to keep parents informed about school activities and achievements. It included the principal's message, highlights of major events across all phases, student podcasts, an art corner, and announcements of upcoming activities. This initiative strengthened school-home communication and provided parents with a comprehensive overview of their child's school experience.

7. Achieve 3000 & Level Up Reading Platforms

The school management has approved & subscribed for Achieve 3000 for Grades 3 to 9 & Level Up for KG to Grade 2 for the academic session 2026-2027. The platforms provides leveled reading resources and generates **Lexile scores**, enabling teachers to accurately assess each child's reading ability and assign books that match their individual reading levels. This personalized approach supports the development of reading fluency, comprehension, vocabulary and independent reading skills while ensuring appropriate challenge and progression for every learner.

8. Blood Donation Camp

A blood donation camp has been initiated in which staff and parents actively participated by contributing for a noble cause. This initiative promotes social responsibility, community service, and awareness about the importance of saving lives through voluntary blood donation.

9. ERP Enhancements, Including Lesson Observations:

The ERP system has been upgraded with several new features to enhance usability and efficiency for staff. These improvements streamline daily administrative tasks, improve accessibility, and contribute to smoother school operations. Additionally, lesson observations, teacher monitoring, and feedback processes have become more structured, efficient, and impactful.

10. Canva

School:

The school has subscribed to Canva for Education, enabling staff members to enhance teaching and communication through creative digital design tools. Teachers are actively and effectively using the platform in their daily work, and they regularly participate in training sessions conducted by the DPS Society to further strengthen their skills and ensure optimal utilization of the resource.

11. Target Setting in collaboration with Parents:

As part of strengthening parent involvement in their child's learning journey, the school introduced a target-setting initiative during open house sessions. Parents were encouraged to set realistic and achievable academic targets for their wards for the upcoming assessment. This collaborative approach enhanced accountability, improved communication between parents and teachers, and motivated students to take ownership of their learning progress.

12. International Trip

An international trip programme has been initiated, with the first educational trip conducted to Turkey. A group of 24 students and 3 teachers participated in this enriching experience, providing students with global exposure and valuable learning beyond the classroom.

13. Special Seating Arrangement in the Play Area:

The school arranged special seating arrangement in the play area by placing tables and chairs to enable students to sit comfortably and enjoy their meals. This initiative encouraged students to have their tiffin together with their friends, promoting social interaction. It also provided a relaxed environment, contributing to students emotional well being.

14. Blog Writing

The Media Club has initiated blog writing activities for students to enhance their communication and digital literacy skills. This platform encourages students to express their ideas creatively while improving their writing, critical thinking, and online expression abilities.

15. Street Play

Street play has been introduced to give students a platform for free expression and creativity. It also helps them develop awareness about relevant social issues and encourages them to communicate meaningful messages to the community.

16. Holistic Progress Card (NCF Tracker):

Holistic Progress Card has been implemented in kindergarten section through the NCF tracker system. It includes competencies and learning outcomes where student progress is recorded through marks. This data is systematically compiled and converted into the Holistic Progress Card, ensuring a comprehensive view of each child's development.

17. ClassDojo:

In Kindergarten, ClassDojo has been introduced to improve classroom management and communication. It supports behaviour tracking, sharing classroom updates, and documenting daily activities. It also strengthens parent-teacher communication by providing regular updates and engagement features.

18. Standardization through Sassoon Font

The Sassoon Font was implemented across the entire KG Department to ensure consistency in early writing development. The font is used in worksheets, presentations, displays, and student writing activities, resulting in improved handwriting formation, presentation standards, and consistency across all KG classes.

19. Reward Jar:

The Reward Jar system has been introduced in KG to encourage positive behaviour and consistent effort in students. Children receive recognition for good behaviour and achievements, which helps build motivation and discipline in the classroom.

20. Book Talk

A new segment called "Book Talk" has been introduced during the morning assembly to motivate students to develop a reading habit. In this activity, students share their thoughts and experiences about a book they have recently read, encouraging peer learning and a love for reading.

21. Circle Time:

Circle Time was introduced in Grades 1 and 2 to enhance essential skills such as communication, collaboration, imagination, emotional expression, and confidence. During these sessions, students are encouraged to share their thoughts, listen to others, and participate in guided discussions and activities. This practice helps in building a safe and inclusive classroom environment where every child feels valued and heard. It also supports the development of social-emotional skills and strengthens peer relationships. Additionally, Circle Time fosters active participation and helps students become more confident and expressive learners.

22. Extended Learning Centers:

Extended Learning Centers were established outside each classroom in the primary grades to enrich the learning experience beyond the classroom environment. These centers provided students with opportunities to explore concepts independently through engaging and hands-on activities. This initiative supported learning interesting, encouraged curiosity, and helped reinforce classroom concepts in a more interactive manner.

23. Water Break:

Two water breaks were incorporated into the daily schedule to promote students' health and well-being. These breaks ensured that students remained hydrated throughout the school day, especially considering the local climate conditions. Regular hydration also supported better concentration, improved energy levels, and overall physical health among students.

COLLABORATIVE PROJECTS 2025 - 2026

Collaborative Projects

The school believes that meaningful collaboration with external stakeholders plays a vital role in enriching educational experiences, strengthening institutional growth, and promoting continuous improvement. Through strategic partnerships with government bodies, professional organizations, community institutions, and educational networks, the school has undertaken a range of collaborative projects that support innovation, leadership, student development, and community engagement.

This report file presents the school's collaborative projects as evidence of its sustained efforts to build productive partnerships that contribute to educational excellence and holistic development of our students.

Accreditations

	The school proudly earned the distinction of being a Microsoft Showcase School for the academic year 2025–2026, reflecting its strong commitment to innovation and excellence in digital learning. This prestigious recognition highlights the effective integration of Microsoft tools to enhance teaching, learning, and collaboration. The school also holds the unique honor of being the only K–12 institution in the Emirate of Ajman to achieve this status, demonstrating its leadership in technology-driven education and its active participation in a global network of forward-thinking schools.
	The school was recognized as an Online Safety Certified School for 2025–2026 by National College, achieving this accreditation for the second consecutive year. This accomplishment underscores the school's consistent efforts in promoting a secure digital environment through structured policies, awareness programs, and digital citizenship initiatives. By actively involving students, staff, and parents, the school ensures that all stakeholders are equipped with the knowledge and practices needed for safe and responsible online engagement.
	For the second consecutive year, the school has been awarded the Mental Health Certified School status for 2025–2026 by National College, reflecting its dedication to fostering a nurturing and supportive environment for emotional well-being. Through comprehensive counseling services, awareness programs, and staff training, the school emphasizes the importance of mental health as a core component of student development, ensuring learners are resilient, confident, and well-supported.
	The school has been honored as a Common Sense Accredited School for the academic year 2025–2026, recognizing its commitment to excellence in digital citizenship education. This accreditation affirms the school's proactive approach in guiding students to use technology responsibly, ethically, and safely. Through a well-integrated curriculum and school-wide initiatives, the institution empowers students with essential skills in online safety, media literacy, and respectful digital behavior, preparing them to thrive in an increasingly connected world.

Field Trips 2025-2026

Field Trips for the Academic year (2025-26)

Field trips are an important part of the learning process in schools. They provide students with opportunities to gain practical knowledge beyond the classroom and connect theoretical concepts with real-life experiences. Educational visits help develop curiosity, observation skills, and a deeper understanding of different subjects. Field trips also promote social interaction, teamwork, and responsible behavior among students. Such experiences make learning more meaningful, engaging, and memorable, supporting the overall development of students.

School Assemblies 2025-2026

SCHOOL ASSEMBLIES

School assemblies are an integral part of school life, providing students with a structured platform to begin the day with discipline, positivity and a sense of purpose. They promote moral values, good conduct and confidence through activities such as speeches, thoughts for the day, news reading, role plays and cultural presentations.

At DPS, Ajman, daily and weekly assemblies are conducted across all grades, from KG to the Senior School. These assemblies focus on themes such as social-emotional well-being, moral values, personality development, important national and international events and special days and celebrations, helping students develop awareness, unity and a strong sense of responsibility.

Club Activity Report – Introduction

At our school, co-curricular activities form an integral part of holistic education, in alignment with CBSE guidelines on competency-based and experiential learning. A wide range of clubs has been thoughtfully designed to cater to diverse learner needs and promote the development of key competencies across scholastic and co-scholastic domains. Clubs such as Quizophile, Maths, Readers, Islamic Studies, IT, STEAM, AI, MUN, Environment & Sustainability, and Innovation & Entrepreneurship aim at strengthening cognitive abilities, analytical thinking, research skills, and problem-solving aptitude. Clubs including Art & Craft, Culinary, Karate, Heritage, Design Thinking, Music, Theatre & Drama, Media, and Health & Well-being focus on fostering creativity, aesthetic appreciation, physical fitness, life skills, and socio-emotional well-being.

These clubs provide structured platforms for active student participation, encouraging inquiry-based learning, collaboration, and innovation. Through regular engagement, students can explore their interests, build confidence, and develop essential 21st-century skills such as critical thinking, communication, teamwork, and leadership. The integration of practical activities with classroom learning further enhances students' ability to apply knowledge in real-life contexts.

The highlights that follow showcase the range of activities undertaken, the enthusiastic participation of students, and the overall growth and development achieved through the club programme during the academic year.
